

DCCN PRACTICAL COUNSELING SCHEDULE FOR

2018 BATCH

S. No	Prog. Code	Course Code	Date	From Hours	To Hours	Brief description of counseling undertaken
1	DCCN	BNSL-033	17.07.18	9:00 AM	1:00 PM ✓	Select a patient with any gastrointestinal condition/problem in CCU. Collect the detailed history of the patient using guidelines in practical manual. Perform physical examination
2	DCCN	BNSL-033	17.07.18	1:00 PM	5:00 PM ✓	Select a patient receiving nasogastric feeding. Give nasogastric feeding to patient. Document the nursing action, type of enteral feed given and its indication.
3	DCCN	BNSL-033	20.07.18	9:00 AM	1:00 PM ✓	Select a patient requiring oxygen therapy, Give oxygen to patients by following methods Venturimask Nasal canula Monitor check the amount of oxygen flow, oxygen concentration and patient's condition Observe Oxygen saturation by pulse oximetry Observe capillary refill time of the patient Record / document observation / findings
4	DCCN	BNSL-033	20.07.18	1:00 PM	5:00 PM ✓	Select a patient with any respiratory condition/ problem in CCU Collect the detailed history of the patient using guidelines in practical manual. Perform physical examination with focus on respiratory system. Collect the subjective and objective data of the patient. Formulate nursing diagnosis Record the findings
5	DCCN	BNSL-033	24.07.18	9:00 AM	1:00 PM ✓ 3	Select a conscious patient with chronic obstructive pulmonary disease COPD/post abdominal surgery Teach the patient to perform incentive spirometry effectively. Encourage the patient to take deep breaths. Check / observe the inspiratory flow and respiratory pattern of the patient Record / document the findings

33 - 360 hrs.
103 - 240 hrs.
034 -

$$19 \times 4 = 76$$

$$13 \times 4 = 52$$

Dr. P. M. Sowjanya
Assistant Regional Director

18/6/18

6	DCCN	BNSL-033	24.07.18	1:00 PM	5:00 PM	<p>Select a patient with mechanical ventilator</p> <p>Note and record the following in relation to the patient</p> <p>ABG values</p> <p>Type of ventilator</p> <p>Ventilatory mode</p> <p>Ventilatory settings./parameters for your patients</p> <p>Any complication developed due to mechanical ventilation</p> <p>Observe the respiratory pattern of the patient.</p> <p>Carryout the nursing intervention related to mechanical ventilation.</p>
7	DCCN	BNSL-033	28.07.18	9:00 AM	1:00 PM	<p>Select a patient with endotracheal intubation, tracheostomy</p> <p>Perform endotracheal suctioning/tracheostomy suctioning.</p> <p>Observe the color, amount of secretions and conditions of the patient.</p> <p>Record / document the findings.</p> <p>Practice the procedure of Endotracheal tube insertion using simulators /dummy.</p>
8	DCCN	BNSL-033	28.07.18	1:00 PM	5:00 PM	<p>Select any patient from a coronary care unit.</p> <p>Collect the detailed history of the patient and record according to the proforma specified.</p> <p>Perform thorough physical examination by inspection, percussion, palpation and auscultation as per the format specified.</p> <p>Collect subjects and objective data</p> <p>Formulate nursing diagnosis</p> <p>Document the findings as per the format specified.</p>
	DCCN	BNSL-033	03.08.18	9:00 AM	1:00 PM	<p>Select two patients and practice following procedures under supervision.</p> <p>Introducing an oropharyngeal airway in a CPR simulator/ dummy</p> <p>Practice Bag mask ventilation using CPR simulator/ dummy.</p> <p>Practice Cardiac compression in a CPR simulator/dummy</p> <p>Demonstrate CPR to your supervisor and peer group/ dummy</p>

Dr. P. M. Sowjanya
 Assistant Regional Director
 IGNOU RC, Hyderabad

18/6/18

10	DCCN	BNSL-033	03.08.18	1:00 PM	5:00 PM	<p>Select a patient with intra aortic balloon pump (IABP) counter-pulsation device</p> <p>Note for vascular changes (if any) in the distal limb (Observe and Record for the possible complications).</p> <p>Carry out the nursing interventions related to the IABP counter-pulsation</p> <p>Observe the inflation and deflation of balloon, its timing and dichotic notch on the arterial waveform. Note the beat ratio.</p> <p>Assess the patient's status and cardiac performance.</p> <p>Evaluate the patient for weaning from IABP</p>
11	DCCN	BNSL-033	07.08.18	9:00 AM	1:00 PM	<p>Select a patient requiring electrocardiographic monitoring</p> <p>Obtain a 12 lead ECG tracing of the patient</p> <p>Observe the tracing and the patient's condition</p> <p>Demonstrate lead placement for continuous cardiac monitoring</p> <p>Select the best leads for the patient for monitor display</p> <p>Observe the ECG findings of the patient and interpret in terms of rate, rhythm and specific findings for the patient.</p>
12	DCCN	BNSL-033	07.08.18	1:00 PM	5:00 PM	<p>Select a patient in CCU.</p> <p>Collect the rhythm strip and report the ECG findings of patient with following conditions</p> <p>Asystole</p> <p>Ventricular fibrillation</p> <p>Ventricular tachycardia</p> <p>Complete heart block</p> <p>Atrial fibrillation</p> <p>Myocardial infarction</p> <p>Document the activity</p>
13	DCCN	BNSL-033	10.08.18	9:00 AM	1:00 PM	<p>Select a patient with CVP line and on hemodynamic monitoring</p> <p>Observe and record the central venous pressure of the patient</p> <p>Perform nursing interventions appropriate for CVP line in situ</p> <p>Check the condition of the insertion site.</p> <p>Record the procedure and observation</p>
14	DCCN	BNSL-033	10.08.18	1:00 PM	5:00 PM	<p>Practice the procedure for defibrillation on a Practical 4 simulator/ dummy under supervision</p> <p>Demonstrate the procedure for defibrillation/ cardioversion in simulated situation to the peer group</p> <p>Observe the defibrillation given to cardiac patient in ICCU</p> <p>Record the findings.</p>

Dr. P. M. Sotjanya
Assistant Regional Director
Hyderabad

18/6/18

15	DCCN	BNSL-033	14.08.18	9:00 AM	1:00 PM	Practice procedure of basic life support (BLS) and Practical 5 Advanced life support (ALS) techniques on asimulator / dummy Demonstrate basic life support(BLS) technique ACLS in the simulation setting to peer group Record the procedure
16	DCCN	BNSL-033	14.08.18	1:00 PM	5:00 PM	Select a patient with altered level of consciousness Practical 1 in neurologic unit Collect the articles for neurologic examination of the patient Obtain a detailed history of the patient from the relatives/documents Perform neurologic examination of the patient Assess the glassgow coma score of the patient Formulate the nursing diagnosis Record the findings as given in practical manual
17	DCCN	BNSL-033	17.08.18	9:00 AM	1:00 PM	Select a patient with any nephrologic condition from a critical care unit. Collect the detailed history of the patient Perform thorough physical examination by inspection, percussion, palpation and auscultation Collect subjective and objective data Formulate nursing diagnosis Document the findings as per the format given in the practical manual
18	DCCN	BNSL-033	17.08.18	1:00 PM	5:00 PM	Select two patient (one each) undergoing hemodialysis and peritoneal dialysis Collect the equipments Prepare the patient, unit and the machine Note the type of shunt to be used/used for the patient Provide the nursing care to the patient before, during and after the dialysis procedure Observe for any of the complications that may occur Record the observations and nursing action
19	DCCN	BNSL-033	21.08.18	9:00 AM	1:00 PM	Select a patient requiring chest physiotherapy Check for the presence of any contraindications for the procedure Perform chest physiotherapy using the methods as given in the practical.
20	DCCN	BNSL-034	21.08.18	1:00 PM	5:00 PM	Select two patients in critical care unit. Prepare a Nursing care plan. Provide care on daily basis. Discuss in your group.
21	DCCN	BNSL-034	24.08.18	9:00 AM	1:00 PM	Select one patient in critical care unit Prepare a case study Make case presentation to peer group
22	DCCN	BNSL-034	24.08.18	1:00 PM	5:00 PM	Select one patient in critical care unit Prepare a case study Make case presentation to peer group

Dr. P. M. Sowjanya

Assistant Regional Director

IGNOU RC, Hyderabad

12/6/18

23	DCCN	BNSL-034	28.08.18	9:00 AM	1:00 PM	Select two nursing procedures that you have to perform for the patients in critical care unit. Prepare an observation checklist for these procedures Observe the procedures among the peer group or selected students.
24	DCCN	BNSL-034	28.08.18	1:00 PM	5:00 PM	Select two nursing procedures that you have to perform for the patients in critical care unit Prepare an observation checklist for these procedures Observe the procedures among the peer group or selected students
25	DCCN	BNSL-034	31.08.18	9:00 AM	1:00 PM	Select the peer group or any other group of students/staff Plan two clinical teachings related to any problem/s of patients in critical care unit Conduct teaching for the selected group Use different methods of teaching
26	DCCN	BNSL-034	31.08.18	1:00 PM	5:00 PM	Select the peer group or any other group of students/staff Plan two clinical teachings related to any problem/s of patients in critical care unit Conduct teaching for the selected group Use different methods of teaching
27	DCCN	BNSL-034	04.09.18	9:00 AM	1:00 PM	Click on the following and explain how did you operate them and what did you find? Icons Taskbar Opening a folder Copying a file and renaming it
28	DCCN	BNSL-034	04.09.18	1:00 PM	5:00 PM	Type a text of nursing diagnosis of a patient based on his/her history. Take a print out of the typed text Select any document from the existing folders. Change the font size and font style. Try highlighting the text applying bold attributes. Try using the spelling and grammar check
29	DCCN	BNSL-034	07.09.18	9:00 AM	1:00 PM	Copy and paste the content from one file to another. Send an email to your peer group explaining the type of critical care programme you are going through.
30	DCCN	BNSL-034	07.09.18	1:00 PM	5:00 PM	Do a Power Point presentation on any topic from nursing.
31	DCCN	BNSL-034	11.09.18	9:00 AM	1:00 PM	Select a research area / topic / problem of your choice. Write problem statement and objectives Prepare a research proposal based on guidelines given in practical manual Prepare the tool Collect data and prepare a term paper or a research report Use mean, median, mode / percentage, graphs for analyzing data

Dr. P. M. Sowjanya
Assistant Regional Director

18/6/18

32	DCCN	BNSL-034	11.09.18	1:00 PM	5:00 PM	Select a research area / topic / problem of your choice. Write problem statement and objectives Prepare a research proposal based on guidelines given in practical manual Prepare the tool Collect data and prepare a term paper or a research report Use mean, median, mode / percentage, graphs for analyzing data
